

Population in 2006

26 Swiss cantons and
Fürstentum Liechtenstein

Residential population in 2006, per Swiss canton, plus Liechtenstein

This map is a cartogram showing the Swiss cantons in the size proportional to the population.

The overall population for Switzerland was a bit less than 7.6 million in 2006, plus 34'000 for Liechtenstein.

The light gray grid shows the deformation that has been applied to the different geographic features.

A cartogram does not have a geographic scale.
